

THE UK GROUP AT BAUMA & BAUMA MINING

23 April to 29 April 2007
Munich, Germany

THE UNITED KINGDOM GROUP AT BAUMA – LEADING THE WAY

The United Kingdom Group at Bauma 2007 is organised by the Construction Equipment Association (CEA)

- the Trade Association that represents the UK Construction Equipment sector. Our members are established Original Equipment Manufacturers (OEMs), component and accessory suppliers, the trade press and specialist research companies.

Construction equipment production is worth an estimated 12.3 billion to the UK economy and provides approximately 57,000 jobs. Our members export an average of 75% of their production to more than 150 export markets. Our members are required to manufacture products of proven reliability to high quality standards with a full after sales service.

The CEA works closely with the UK government and its agencies and is recognised as the voice of the UK construction equipment sector. We are represented in Brussels, as active members of the Committee for European Construction Equipment (CECE).

If you are looking for manufacturers, suppliers, or specific information on the UK Construction Equipment sector visit our web site www.coneq.org.uk or e-mail: cea@admin.co.uk

VISIT US AT BAUMA IN HALL A5 ON STAND 319/2

THE UK CONSTRUCTION EQUIPMENT SECTOR PRODUCES:

- Earthmoving equipment
- Drilling and tunneling equipment - including foundation engineering
- Road construction equipment - including preparation, storage and handling
- Concrete equipment
- Crushers and screens - recycling and the environment
- Components
- Retro-fit products including safety, security and monitoring equipment
- Lighting equipment such as mobile lighting towers
- Market research companies - with global reputations
- University research and testing grounds - demonstrate the back up for the product and at the cutting edge of research for global companies on construction equipment

THE UK CONSTRUCTION EQUIPMENT SECTOR IS:

At the leading edge of Research, Design and Technology

Companies innovate and utilise the most advanced design technology available. Designers are recruited from the world's top universities. Many companies have an in-house R & D department, continually assessing product ranges for performance improvement, changes in environmental legislation and designing new models.

Design philosophy is one of constant product improvement with the emphasis on simplicity of operation, inter-changeability of parts, ease of maintenance and reliability. Placing the UK at the forefront of global design capability.

Experienced

UK construction equipment manufacturers trade with over 200 countries. With a focus not only on export, but also in partnerships, joint ventures and technology transfers.

Training

Skilled and motivated personnel ensure customers receive the highest level of service. Companies offer continuous development and training.

Production Techniques

UK suppliers pride themselves on their manufacturing excellence - many basing their production techniques on automotive industry best practice. Lean manufacturing principles are employed to deliver high quality products at the right price. Companies offer value added solutions to a wide range of construction industry challenges incorporating leading edge technology.

Components

Integrated products enable OEM's to exploit niche markets without high expenditure on R & D and testing. Component supplier companies aim to develop and maintain long term partnerships with key customers, working with OEMs to reduce costs, improve delivery sequencing and raise quality levels by providing innovative and practical solutions to the demands of the market place.

UK TRADE & INVESTMENT

The United Kingdom Pavilion at Bauma is co-sponsored by UK Trade & Investment - the UK Government organisation that supports companies in the UK doing business internationally and overseas enterprises seeking to set up or expand in the UK.

Its role is to help companies realise their international business potential through knowledge transfer, and on-going partnership support. To support its aim to "enhance the competitiveness of companies in the UK through overseas trade and investments; and attract a continuing high level of quality foreign direct investment"; UK Trade & Investment offers services to:

UK businesses that want to grow their business internationally: www.uktradeinvest.gov.uk

Overseas businesses that want to locate in the UK: www.ukinvest.gov.uk/gateway/index.html

Every year UKTI help hundreds of firms, from hi-tech start-ups to global industry leaders, discover global growth from a UK base. The website is a gateway to the wide range of free information and business services provided to support businesses.

HOW UKTI CAN HELP YOU SET UP OR FIND A PARTNER IN THE UK:

- Free information - trends and analysis
- Real time news and views in your sector, examining the issues affecting your business
- Operational insights
- Practical advice on how to optimise your UK business
- Detailed reports and publications
- Free business services - research
- Comparing UK & European stats
- Bespoke reports for your business
- Locate - finding sites that match your needs
- Practical help setting up
- Grow - ongoing business support to help you access new markets

RICHTUNGWEISEND - DIE UNITED KINGDOM GROUP BEI DER BAUMA

Die United Kingdom Group bei der Bauma 2007 ist von der Construction Equipment Association (CEA) organisiert - dem Fachverband, der den britischen Baumaschinensektor vertritt. Unsere Mitglieder sind etablierte Originalhersteller (OEMs), Bauteil- und Zulieferanten, die Fachpresse und spezialisierte Forschungsunternehmen.

Die Produktion von Baumaschinen stellt einen geschätzten Wert von 12,3 Milliarden Euro für die britische Wirtschaft dar und bietet ungefähr 57.000 Arbeitsplätze. Unsere Mitglieder exportieren durchschnittlich 75 % ihrer Produktion in mehr als 150 Exportmärkte. Unsere Mitglieder müssen Produkte erwiesener Zuverlässigkeit gemäß hohen Qualitätsstandards, begleitet von einem umfassenden Kundenservice, herstellen.

Die CEA arbeitet eng mit der britischen Regierung und ihren Behörden zusammen und ist als die Stimme des britischen Baumaschinensektors anerkannt. Wir sind in Brüssel als aktive Mitglieder des europäischen Baumaschinenkomitees (CECE) vertreten.

Falls Sie nach Herstellern, Lieferanten oder bestimmten Informationen über den britischen Baumaschinensektor suchen, besuchen Sie unsere Website www.coneq.org.uk oder e-mailen Sie: cea@admin.co.uk

BESUCHEN SIE UNS BEI DER BAUMA IN HALLE A5 AN STAND 319/2

DER BRITISCHE BAUMASCHINENSEKTOR PRODUZIERT:

- Erdbewegungsmaschinen
- Bohr- und Tunnelbaumaschinerie - einschließlich Fundamentbau
- Straßenbaumaschinen - einschließlich Vorbereitung, Lagerung und Förderanlagen
- Betonmischer
- Brechmaschinen und Sortierer - Recycling und Umwelt
- Bauteile
- Aufrüstprodukte, einschließlich Sicherheits- und Überwachungsvorrichtungen
- Beleuchtung wie mobile Flutlichtmaste
- Marktforschungsunternehmen - mit globalem Ruf
- Universitätsforschung und Versuchsgelände - diese stellen die Unterstützung für das Produkt dar und befinden sich an vorderster Front bei der Forschung für globale Unternehmen in Bezug auf Baumaschinen

DER BRITISCHE BAUMASCHINENSEKTOR:

An vorderster Front bei Forschung, Entwicklung und Technologie

Unternehmen nutzen und entwickeln die fortschrittlichste verfügbare Designtechnologie. Konstrukteure werden von den besten Universitäten der Welt angeheuert. Viele Firmen verfügen über eine interne F&E-Abteilung, die die Produktpalette ständig hinsichtlich Leistungssteigerungen, Änderungen in der Umweltgesetzgebung und der Entwicklung neuer Modelle beobachtet.

Die Designphilosophie basiert auf der kontinuierlichen Produktverbesserung mit dem Schwerpunkt auf einfacher Bedienung, Austauschbarkeit der Bauteile, einfacher Wartung und Zuverlässigkeit. Damit steht Großbritannien global an vorderster Front im Bereich der Konstruktion.

Erfahren

Britische Baumaschinenhersteller treiben mit über 200 Ländern Handel. Dabei liegt der Schwerpunkt nicht nur auf Export, sondern auch auf Partnerschaften, Joint Ventures und Technologietransfer.

Aus- und Fortbildung

Gut ausgebildetes und motiviertes Personal stellt sicher, dass Kunden besten Service erhalten. Unternehmen bieten die Möglichkeit zu kontinuierlicher Fortbildung.

Produktionstechniken

Britische Lieferanten sind stolz auf ihre Produktionsfähigkeiten - viele basieren ihre Fertigungstechniken auf besten Praktiken in der Automobilindustrie. Prinzipien des "Lean Manufacturing" werden eingesetzt, um qualitativ hochwertige Produkte zum richtigen Preis zu liefern. Unternehmen bieten Mehrwertlösungen für vielfältige Herausforderungen in der Bauindustrie und setzen dabei hochmoderne Technologien ein.

Bauteile

Integrierte Produkte ermöglichen es OEMs, Nischenmärkte ohne hohe Ausgaben für F&E und Tests zu nutzen. Bauteilunternehmen zielen darauf ab, langfristige Beziehungen mit wichtigen Kunden zu entwickeln und zu erhalten, und arbeiten mit OEMs zusammen, um Kosten zu senken, die Lieferplanung zu verbessern und Qualität zu steigern, indem sie innovative und praktische Lösungen für die Herausforderungen des Markts bereitstellen.

UK TRADE & INVESTMENT

Der britische Messepavillon bei der Bauma ist teilweise von UK Trade & Investment gesponsert, der Organisation der britischen Regierung, die Unternehmen in Großbritannien unterstützt, die internationale Geschäfte tätigen, und ausländische Unternehmen, die sich in Großbritannien niederlassen oder dort expandieren wollen.

Die Rolle dieser Organisation liegt darin, Unternehmen durch Wissenstransfer und laufende Partnerschaftsunterstützung zu helfen, ihr internationales Geschäftspotenzial auszuschöpfen. Zur Unterstützung ihres Ziels, "die Wettbewerbsfähigkeit von Unternehmen in Großbritannien durch Auslandshandel und -investitionen zu verbessern und eine kontinuierlich hohe Qualität ausländischer Direktinvestitionen anzuziehen", bietet UK Trade & Investment Dienstleistungen für:

Britische Unternehmen, die ihre Geschäftstätigkeit international ausweiten wollen: www.uktradeinvest.gov.uk

Ausländische Unternehmen, die sich in Großbritannien niederlassen wollen: www.ukinvest.gov.uk/gateway/index.html

Jedes Jahr hilft UKTI Hunderten von Unternehmen, von High Tech-Jungunternehmen bis globalen Industrieführern, dabei, globales Wachstum von einer britischen Basis zu entdecken. Die Website ist ein Portal zu einer Vielfalt von kostenlosen Informationen und Geschäftsdienstleistungen zur Unterstützung von Unternehmen.

SO KANN UKTI IHNEN DABEI HELFEN, SICH IN GROSSBRITANNIEN NIEDERZULASSEN ODER DORT EINEN PARTNER ZU FINDEN:

- Kostenlose Informationen - Trends und Analysen
- Echtzeit-Nachrichten und -Meinungen in Ihrem Sektor zu Angelegenheiten, die Ihr Unternehmen betreffen
- Betriebliche Einblicke
- Praktische Ratschläge zur Optimierung ihres britischen Geschäfts
- Detaillierte Berichte und Veröffentlichungen
- Kostenlose Geschäftsdienstleistungen - Forschung
- Vergleich britischer & europäischer Statistiken
- Maßgeschneiderte Berichte für Ihr Unternehmen
- Standortsuche für Ihre Anforderungen
- Praktische Unterstützung beim Aufbau Ihrer Niederlassung
- Laufende geschäftliche Unterstützung beim Erschließen neuer Märkte

PAVILLON DU ROYAUME-UNI AU BAUMA – EN TÊTE DU MARCHÉ

Le Pavillon du Royaume-Uni au Bauma 2007 est organisé par la CEA (Construction Equipment Association) - association professionnelle représentant le secteur britannique des équipements de génie civil. Les membres du groupe sont des équipementiers établis sur le marché, des fournisseurs de composants et d'accessoires, des représentants de la presse professionnelle et des entreprises de recherche spécialisées.

La production de matériel de construction est un marché de 12,3 milliards d'euros pour l'économie britannique, qui emploie quelque 57 000 personnes. Nos membres exportent en moyenne 75 % de leur production sur plus de 150 marchés. Ils sont tenus, de par leur appartenance, à fabriquer des produits dont la fiabilité et la haute qualité ont été prouvées et qui sont assortis d'un service après-vente complet.

La CEA travaille en étroite collaboration avec le gouvernement britannique et ses agences, et elle est reconnue en tant que porte-parole du secteur des équipements de génie civil. Elle est représentée à Bruxelles en qualité de membre actif au CECE (Committee for European Construction Equipment).

Si vous recherchez des fabricants, des fournisseurs ou des informations spécifiques sur le secteur britannique des équipements de génie civil, n'hésitez pas à consulter notre site Web, www.coneq.org.uk ou à nous écrire à l'adresse cea@admin.co.uk

RENDEZ-NOUS VISITE AU SALON DU BAUMA, HALL A5, STAND 319/2

DOMAINES D'ACTIVITÉ DU SECTEUR BRITANNIQUE DES ÉQUIPEMENTS DE GÉNIE CIVIL:

- Engins de chantier
- Équipements de sondage, creusement et forage en tunnel, y compris pour la technique des fondations
- Équipements de construction des voies, y compris pour la préparation, le stockage et la manutention
- Matériels pour le béton
- Concasseurs et cribles - Recyclage et environnement
- Composants
- Produits de rattrapage y compris pour les aspects de sûreté, sécurité, et surveillance
- Systèmes d'éclairage, telles les tours mobiles d'éclairage de génie civil
- Études de marché - Entreprises de réputation mondiale
- Recherche universitaire et terrains d'essai – Démonstration du support produit et travail à la pointe de la recherche, au service des acteurs mondiaux des équipements de génie civil

LE SECTEUR BRITANNIQUE DES ÉQUIPEMENTS DE GÉNIE CIVIL EST :

En tête de la recherche, de la conception et de la technologie

Les entreprises innovent et ont recours aux technologies de conception les plus avancées qui soient. Les concepteurs sont recrutés dans les plus grandes universités du monde. Nombre d'entreprises possèdent leur propre service de recherche et développement et évaluent sans cesse les produits pour en améliorer les performances, les adapter aux lois sur l'environnement et concevoir de nouveaux modèles.

La philosophie de la conception se focalise sur l'amélioration constante de chaque produit, et en particulier sur la simplification de son fonctionnement, l'interchangeabilité des pièces, la facilité d'entretien et la fiabilité, plaçant ainsi le Royaume-Uni à l'avant-scène de ce marché mondial précis.

Fort d'une longue expérience

Les constructeurs d'équipements de génie civil britanniques entretiennent des relations commerciales avec plus de 200 pays,

centrées non seulement sur l'exportation, mais aussi sur les partenariats, les joint-ventures et les transferts de technologie.

Centré sur la formation

Le personnel compétent et motivé assure le plus haut de niveau de service à la clientèle. Les entreprises proposent une formation continue et un développement permanent.

Axé sur les techniques de production

Les fournisseurs britanniques sont fiers de leur excellence de fabrication. Nombre d'entre eux fondent leurs techniques de production sur les meilleures pratiques de l'industrie automobile. Ils mettent en œuvre les principes de production allégée, pour fournir des produits de haute qualité au juste prix. Les entreprises offrent des solutions de valeur ajoutée intégrant les technologies de pointe, qui répondent à de nombreux défis du secteur du bâtiment et des travaux publics.

Expert en composants

L'intégration des produits permet aux équipementiers d'exploiter les niches du marché, sans dépenses excessives en recherche et développement et essais. Les fournisseurs de composants visent à développer et à entretenir leurs relations à long terme avec leurs clients clés, en travaillant avec les équipementiers pour réduire les coûts, améliorer les échéances de livraison et remonter les niveaux de qualité, et en apportant des solutions innovantes et pratiques répondant aux exigences du marché.

FRENCH

UK TRADE & INVESTMENT

Le Pavillon du Royaume-Uni au Bauma est sponsorisé en partie par UKTI (UK Trade & Investment), organisation gouvernementale britannique qui soutient les entreprises du Royaume-Uni dans leur effort de commerce international et les entreprises étrangères désireuses de s'installer ou de développer leur activité au Royaume-Uni.

Son rôle est d'aider les entreprises à réaliser leur potentiel international par le transfert de connaissances et par un soutien permanent par partenariat. Pour atteindre son but, "améliorer la compétitivité des entreprises britanniques dans leurs échanges et leurs investissements à l'étranger et attirer les investissements étrangers directs, de haute qualité", UKTI offre ses services aux acteurs suivants du marché :

Entreprises britanniques, désireuses de faire grandir leur activité à l'international: www.uktradeinvest.gov.uk

Entreprises étrangères, désireuses de s'installer au Royaume-Uni: www.ukinvest.gov.uk/gateway/index.html

Chaque année, UKTI aide des centaines d'organisations, des petites structures spécialisées dans l'innovation aux grandes entreprises industrielles établies, à grandir vers l'étranger, depuis leur base au Royaume-Uni. Le site Web est une passerelle vers toute une série d'informations et de services professionnels destinés à aider les entreprises.

COMMENT UKTI PEUT-ELLE VOUS AIDER À VOUS INSTALLER OU VOUS ASSOCIER AU ROYAUME-UNI:

- Informations gratuites – Tendances et analyses
- Informations en temps réel et opinions de votre secteur d'activité, examen des problèmes et questions concernant votre activité
- Points de vue opérationnels
- Conseils pratiques sur l'optimisation de votre activité au Royaume-Uni
- Rapports et publications détaillés
- Services commerciaux gratuits - Recherche
- Statistiques comparatives entre le Royaume-Uni et le reste de l'Europe
- Rapports sur mesure pour votre entreprise
- Localisation – Recherche de sites correspondant à vos besoins
- Aides pratiques à l'installation
- Croissance – Soutien commercial constant pour vous aider à accéder à de nouveaux marchés

IL REGNO UNITO AL BAUMA – IN PRIMA FILA

La partecipazione del Regno Unito al Bauma 2007 è organizzata dalla Construction Equipment Association (CEA) - l'associazione commerciale che rappresenta il settore delle macchine edili per il Regno Unito. I nostri soci sono OEM (Original Equipment Manufacturers, produttori di apparecchiature originali) affermati, fornitori di componenti e accessori, stampa commerciale e società di ricerca specializzate.

La produzione di macchine edili rappresenta circa 12,3 miliardi di euro per l'economia del Regno Unito e il settore dà lavoro a circa 57.000 persone. I nostri soci esportano mediamente il 75% della propria produzione in oltre 150 mercati internazionali. I nostri soci devono realizzare prodotti di sicura affidabilità in base ad elevati standard qualitativi, con servizio post-vendita completo.

La CEA lavora a stretto contatto con il Governo del Regno Unito e i propri enti ed è riconosciuta come interlocutore fondamentale nel settore delle macchine edili del Regno Unito. Siamo rappresentati a Bruxelles, come soci attivi presso il CECE (Committee for European Construction Equipment, Comitato per le macchine edili europee).

Se state cercando produttori, fornitori o informazioni specifiche sul settore delle macchine edili nel Regno Unito, visitate il nostro sito Web www.coneq.org.uk, oppure inviate un'e-mail all'indirizzo: cea@admin.co.uk

VISITATECI AL BAUMA, PADIGLIONE A5, NUMERO 319/2

IL SETTORE DELLE MACCHINE EDILI DEL REGNO UNITO PRODUCE:

- Macchine di movimento terra
- Macchine per il settore estrattivo e la trivellazione, compresa la progettazione di fondazioni
- Macchine per la costruzione di strade, tra cui la preparazione, lo stoccaggio e la movimentazione
- Macchine per betonaggio
- Frantumatori e vagli. Riciclaggio e ambiente
- Componenti
- Prodotti di riconfigurazione, comprese le macchine per la sicurezza e il monitoraggio
- Macchine per illuminazione, come ad esempio torri per l'illuminazione mobile
- Società di ricerca di mercato di fama internazionale
- Ricerca universitaria e prove a terra. Assistenza per il prodotto. Ricerca avanzata per aziende globali dedicate alle macchine edili

IL SETTORE DELLE MACCHINE EDILI DEL REGNO UNITO È:

All'avanguardia della ricerca, della progettazione e della tecnologia

Le aziende innovano e utilizzano la tecnologia di progettazione più avanzata disponibile. I progettisti vengono reclutati tra le migliori università del mondo. Molte aziende hanno un proprio reparto di ricerca e sviluppo e verificano in continuazione le serie di prodotti per il miglioramento delle prestazioni, modifiche alla legislazione ambientale e progettazione di nuovi modelli.

La filosofia di progettazione è uno dei miglioramenti costanti del prodotto, mettendo in particolare evidenza la semplicità dell'operazione, l'intercambiabilità dei componenti, la facilità di manutenzione e l'affidabilità. Il Regno Unito è all'avanguardia per quanto riguarda la capacità di progettazione globale.

Esperienza

I produttori di macchine edili commerciano con oltre 200 Paesi. Il centro di interesse è costituito non solo dalle esportazioni, ma anche da collaborazioni, joint venture e trasferimenti di tecnologie.

Formazione

Personale addestrato e motivato garantisce ai clienti il massimo livello di assistenza. Le aziende offrono sviluppo e addestramento costante.

Tecniche di produzione

I fornitori del Regno Unito sono orgogliosi del livello di eccellenza raggiunto dai propri prodotti. Molti di essi basano le proprie tecniche di produzione sulle migliori prassi dell'industria automobilistica. Vengono messi in atto dei principi chiari, che consentono di ottenere prodotti di alta qualità a prezzo competitivo. Le aziende offrono soluzioni a valore aggiunto in molti settori dell'industria edile, con tecnologie all'avanguardia.

Componenti

I prodotti integrati consentono agli OEM di sfruttare i mercati di nicchia senza spese elevate in ricerca, sviluppo e test. Le aziende fornitrici di componenti mirano a sviluppare e mantenere rapporti a lungo termine con i loro principali clienti, lavorando insieme agli OEM per ridurre i costi, migliorare le consegne ed aumentare i livelli qualitativi fornendo soluzioni innovative e pratiche per soddisfare le richieste del mercato.

COMMERCIO E INVESTIMENTI NEL REGNO UNITO

Il padiglione del Regno Unito presente al Bauma è co-sponsorizzato da UK Trade & Investment, l'ente statale del Regno Unito che sostiene le aziende del Regno Unito che operano sui mercati internazionali e le aziende estere che stanno cercando di aprire sedi o espandersi nel Regno Unito.

Il suo ruolo consiste nell'aiutare le aziende a sfruttare concretamente il loro potenziale economico internazionale attraverso il trasferimento delle competenze e l'assistenza continua. Per raggiungere l'obiettivo di "migliorare la competitività delle aziende nel Regno Unito mediante il commercio e gli investimenti esteri, attrarre un elevato livello di investimenti diretti stranieri nella qualità", UK Trade & Investment offre servizi per:

Aziende del Regno Unito che desiderano far crescere la propria attività a livello internazionale:
www.uktradeinvest.gov.uk

Aziende straniere che desiderano aprire una sede nel Regno Unito: www.ukinvest.gov.uk/gateway/index.html

Ogni anno l'UKTI aiuta centinaia di imprese - dalle start-up che operano nel settore hi-tech fino ai leader dell'industria globale - a migliorare la propria crescita globale partendo da una base nel Regno Unito. Il sito Web è un ponte per l'ampia gamma di informazioni e servizi alle aziende gratuiti messi a disposizione per sostenere le aziende.

COME L'UKTI PUÒ AIUTARVI A TROVARE UN PARTNER NEL REGNO UNITO:

- Informazioni gratuite - tendenze e analisi
- Notizie e in tempo reale e tendenze del settore, esame dei problemi del vostro settore di attività
- Analisi operative
- Consigli pratici su come ottimizzare la vostra attività nel Regno Unito
- Resoconti e pubblicazioni dettagliate
- Servizi alle aziende gratuiti. Ricerca
- Confronto tra statistiche su Regno Unito ed Europa
- Rapporti su misura per la vostra azienda
- Aprire una sede: trovare il sito adatti alle vostre esigenze
- Aiuto pratico per l'apertura
- Crescere. Assistenza costante per le aziende, per aiutarvi a penetrare su nuovi mercati

THE UNITED KINGDOM GROUP AT BAUMA – A LA VANGUARDIA

The United Kingdom Group at Bauma 2007 está organizado por la Asociación de Equipos para la Construcción (CEA) - la asociación comercial que representa al sector británico de equipos para la construcción. Nuestros miembros son fabricantes de equipos originales (OEM) consolidados, proveedores de componentes y accesorios, la prensa especializada y empresas especializadas en la realización de estudios.

La producción de equipos para la construcción está valorada en unos 12.300 millones en la economía británica y da empleo a unas 57.000 personas. Nuestros miembros exportan una media del 75% de su producción a más de 150 mercados de exportación. Nuestros miembros deben fabricar productos de fiabilidad probada de acuerdo con unos elevados estándares de calidad y un completo servicio post-venta.

La CEA trabaja en estrecha colaboración con el gobierno británico y sus organismos y está reconocida como la voz del sector de los equipos para la construcción de ese país. Estamos representados en Bruselas como miembros activos del Comité Europeo de Equipos para la Construcción (CECE).

Si busca fabricantes, proveedores o información específica sobre el sector británico de equipos para la construcción, visite nuestro sitio web en www.coneq.org.uk o envíe un e-mail a cea@admin.co.uk

VISÍTENOS EN BAUMA, PABELLÓN A5 EN EL STAND 319/2

EL SECTOR BRITÁNICO DE EQUIPOS PARA LA CONSTRUCCIÓN PRODUCE:

- Equipos para excavaciones
- Equipos de perforación y túneles, incluyendo la ingeniería de cimientos
- Equipos para la construcción de carreteras, incluyendo la preparación, almacenamiento y manipulación
- Equipos para hormigón
- Trituradoras y filtros; reciclaje y medio ambiente
- Componentes
- Productos retroinstalados incluyendo equipos de seguridad, control y vigilancia
- Equipos de iluminación como torres móviles de iluminación
- Empresas de estudios de mercado de reputación mundial
- Investigaciones universitarias y terrenos de prueba; demostración del soporte al producto y liderazgo en investigación para empresas mundiales de equipos para la construcción

EL SECTOR BRITÁNICO DE EQUIPOS PARA LA CONSTRUCCIÓN CONSTA DE:

Vanguardia en investigación, diseño y tecnología

Las empresas innovan y utilizan la tecnología de diseño más avanzada disponible. Los diseñadores son contratados en las mejores universidades del mundo. Muchas empresas cuentan con un departamento interno de I+D que evalúa constantemente las líneas de producto para mejorar su rendimiento, adaptarse a los cambios en la legislación medioambiental y diseñar nuevos modelos.

La filosofía de diseño implica una constante mejora de los productos haciendo especial énfasis en la facilidad de uso, la intercambiabilidad de las piezas, un mantenimiento sencillo y la fiabilidad. Con esto, el Reino Unido se sitúa a la vanguardia del diseño mundial.

Experiencia

Los fabricantes británicos de equipos para la construcción trabajan con más de 200 países prestando especial atención no sólo a las exportaciones, sino también participando también en asociaciones, empresas conjuntas y operaciones de transferencia tecnológica.

Formación

Un personal formado y motivado es sinónimo de los más elevados niveles de servicio. Las empresas ofrecen oportunidades continuas de desarrollo y formación.

Técnicas de producción

Los proveedores británicos se enorgullecen de su excelencia en la fabricación, ya que muchos basan sus técnicas de producción en las mejores prácticas del sector automotriz. Emplean principios de producción ajustada para ofrecer productos de alta calidad al precio adecuado. Las empresas ofrecen soluciones de valor añadido a los muchos retos que plantea el sector de la construcción incorporando lo último en tecnología.

Componentes

Los productos integrados permiten a los OEM explotar nichos de mercado sin un coste elevado en I+D y pruebas. Las empresas proveedoras de componentes tratan de desarrollar y mantener unas asociaciones a largo plazo con sus principales clientes, trabajando con los OEM para reducir los costes, mejorar la secuenciación de las entregas y elevar los niveles de calidad ofreciendo unas soluciones prácticas e innovadoras a las demandas del mercado.

UK TRADE & INVESTMENT

El pabellón dedicado al Reino Unido en Bauma está co-patrocinado por UK Trade & Investment, la organización gubernamental británica que apoya a las empresas del Reino Unido que operan internacionalmente y a las empresas extranjeras que tratan de establecerse o crecer en ese país.

Su función consiste en ayudar a las empresas a explotar su potencial internacional a través de la transferencia de conocimientos y el apoyo continuado a las asociaciones. Para respaldar su objetivo de "mejorar la competitividad de las empresas en el Reino Unido a través del comercio y la inversión exterior y atraer un elevado nivel continuado de inversión directa extranjera de calidad", UK Trade & Investment ofrece servicios a:

Empresas británicas que quieren crecer a escala internacional: www.uktradeinvest.gov.uk/

Empresas extranjeras que quieren operar en el mercado británico: www.ukinvest.gov.uk/gateway/index.html

Cada año, UKTI ayuda a cientos de empresas, desde nuevas firmas de alta tecnología hasta líderes industriales mundiales, a descubrir el crecimiento a nivel global a partir de una base británica. Su sitio web es una puerta de entrada a la numerosa información gratuita y servicios empresariales que presta a las empresas.

CÓMO UKTI PUEDE AYUDARLE A ESTABLECERSE O ENCONTRAR UN SOCIO EN EL REINO UNIDO:

- Información gratuita: tendencias y análisis
- Noticias y visiones en tiempo real de su sector, examinando los temas que afectan a su empresa
- Perspectivas operativas
- Asesoramiento práctico para optimizar su actividad en el Reino Unido
- Informes y publicaciones pormenorizados
- Servicios empresariales gratuitos; investigación
- Comparación de estadísticas británicas y europeas
- Informes personalizados para su empresa
- Localización: búsqueda de sitios que se ajusten a sus necesidades
- Ayuda práctica para establecerse
- Crecimiento: soporte empresarial continuado para ayudarle a acceder a nuevos mercados

BAUMA 博览会英国展团—引领行业趋势

Bauma 2007 英国展团由英国工程机械协会 (CEA) 组织。英国工程机械工业协会是代表英国工程机械行业的行业协会。我们的会员包括工程机械制造商 (OEM)、零部件和配套设备供应商、行业出版机构和专业咨询公司。

英国工程机械行业对英国经济的贡献估计达到 123 亿英镑，提供了约 57,000 份就业机会。我们的会员企业平均 75% 的产量出口到国外市场，出口目标市场超过 150 个。我们的会员企业按照高标准要求制造经过检验质量可靠的产品，并提供完备的售后服务。

英国工程机械协会与英国政府及其下属机构保持紧密合作，反映本行业呼声。我们是位于布鲁塞尔的欧洲工程机械委员会 (CECE) 积极的会员。

如您正在寻找制造商、供应商或需要英国工程机械行业的详细信息，请访问我们的网站 www.coneq.org.uk，或发送电子邮件至：cea@admin.co.uk

欢迎莅临 Bauma 博览会 A5 展厅 319 / 2 展台。

英国工程机械行业的产品包括：

- 土石方机械；
- 钻孔和隧道掘进设备——包括基础工程设备；
- 道路施工——包括材料制备、储存和输送；
- 混凝土设备；
- 粉碎机与筛选机—回收利用与环境保护；
- 零部件；
- 后视监控产品包括安全、保安和监视设备；
- 照明设备，如移动式照明灯塔；
- 世界知名的市场研究公司；
- 大学研究机构与试验检测设施—展示了对产品提供的强大技术支持，在全球工程机械公司中研究水平处于最前沿。

英国工程机械行业：

处于研究、设计和技术的领先地位：

公司善于创新，并采用最先进的设计技术。从全球顶尖的大学中招募设计人员。许多公司拥有内部研发部门，针对产品系列的性能改善及环境立法的变化，进行持续评估，并设计新型产品。

设计理念遵循不断改善产品性能的原则，并强调操作的简便性、零部件的互换性、维护保养的简易性及可靠性。凭借此理念，英国稳居全球设计领域的翘楚地位。

经验丰富：

英国的工程机械制造商与 200 余个国家开展贸易往来。不仅注重出口，亦重视合作、合资及技术转让。

培训：

技能熟练且尽职尽责的员工，确保客户得到最高水准的服务。公司提供持续的个人发展机会和培训机会。

制造工艺：

英国供应商拥有卓越的制造技术，并引以为荣——许多企业以汽车行业的最佳实践作为制造工艺的基准。公司采用严谨的制造原则，以合适的价格提供高品质产品。公司可采用领先的技术，针对工程和建筑业的各类挑战提供增值解决方案。

零部件：

整合型产品使设备制造商无须承担高昂的研发及测试费用就可以开拓缝隙市场。零部件供应企业旨在与核心客户发展并保持长期合作关系，与设备制造商协作，通过提供创新且可行的解决方案满足市场需求，从而降低成本、改善交货顺序并提高质量水平。

英国贸易与投资总署

Bauma 博览会的英国展区亦得到英国贸易与投资总署的赞助支持。英国贸易与投资总署是一个政府机构，为希望发展国际业务的英国公司和希望到英国建立或扩展业务的外国公司提供支持。

英国贸易与投资总署的职责为：通过知识转让和持续的合作支持，帮助公司实现国际业务增长。为支持“通过海外贸易与投资增强英国公司竞争力；并持续吸引高水准的外国直接投资”这一目标，英国贸易与投资总署向下列企业提供服务：

有意拓展国际业务的英国公司：www.uktradeinvest.gov.uk

有意进入英国的外国公司：www.ukinvest.gov.uk/gateway/index.html

英国贸易与投资总署每年都为数百家企业提供帮助，既包括新兴的高科技公司，也有全球性的行业领先企业，帮助其以英国为基础，实现全球增长。网站提供各类免费信息和商业服务，为企业经营提供支持。

英国贸易与投资总署如何帮助您在英国开展业务或寻觅合作伙伴：

- 免费信息—趋势与分析；
- 您所在行业的实时新闻与评论，确定可能对业务产生影响的问题；
- 运营方面的纵深见解；
- 针对如何优化英国业务的务实的建议；
- 详尽的报告和出版物；
- 免费商业服务—研究；
- 比较英国与欧洲的统计数据；
- 为您的业务编写报告；
- 定位—寻找符合您需要的地点；
- 企业初创期的实际帮助；
- 增长—持续的商业支持，帮助您进入全新市场。

Piling equipment suppliers.

THE UNITED KINGDOM GROUP AT BAUMA LEADING THE WAY

The United Kingdom Group at Bauma 2007 is organised by the Construction Equipment Association (CEA)

- the Trade Association that represents the UK Construction Equipment sector. Our members are established Original Equipment Manufacturers (OEMs), component and accessory suppliers, the trade press and specialist research companies.

Construction equipment production is worth an estimated 12.3 billion to the UK economy and provides approximately 57,000 jobs. Our members export an average of 75% of their production to more than 150 export markets. Our members are required to manufacture products of proven reliability to high quality standards with a full after sales service.

The CEA works closely with the UK government and its agencies and is recognised as the voice of the UK construction equipment sector. We are represented in Brussels, as active members of the Committee for European Construction Equipment (CECE).

If you are looking for manufacturers, suppliers, or specific information on the UK Construction Equipment sector visit our web site www.coneq.org.uk or e-mail: cea@admin.co.uk

VISIT US AT BAUMA IN HALL A5 ON STAND 319/2
